

NOVOFARM at AGRO 2014

From 4th to 7th June, 2014 was traditionally organized **the biggest XXVI International Agro-industrial exhibition “AGRO- 2014”** in Kiev. There were more than 900 big and small companies from 16 countries with wide specter of farm machines and innovating technologies.

LLC with FI “Novofarm” has already been a participant of this exhibition for many years and always demonstrates huge amount of farm technique.

This time at our stand have been shown: [Axial-Flow 6140](#) grain combine with c [Nardi](#) header, [Magnum 260](#) tractor with [Nutri-Placer 930](#) attached implement, [Patriot SPX 3330](#) sprayer and also [Trimble](#) precision planting systems. Also our warehouse representative showed different spare parts, greasing oils and materials. LLC with FI “Novofarm” has one of the biggest spare parts net in Ukraine; we have more than 10 warehouses in our country.

This exhibition is very interesting for Ukrainian visitors, for first government persons, for regional agrarian headers and for top-managers, specialists of agrarian enterprises. Our firm had comfortable position and many guests, visitors in that event.

LLC with FI “Novofarm” signed many pre-selling agreements (technique selling) at the exhibition “AGRO-2014”.

We will glad to meet you again, your “Novofarm”! :)
