

STATE FOOD AND GRAIN CORPORATION OF UKRAINE (SFGCU) TOOK PART IN THE MAIN AGRICULTURAL EXHIBITION OF UKRAINE

4.06.2014

Today, the National Complex "Expocenter of Ukraine" (Kyiv) opened the XXVI International Agricultural Exhibition AGRO 2014 and State Food and Grain Corporation of Ukraine became its participant. This event, organized by the Ministry of Agricultural Policy and Food, is recognized as the biggest national event in agriculture and is attended by foreign delegations and representatives of local agricultural, food, processing and agricultural machinery industries, agricultural universities and research institutes. This year 10 exhibitions will be held, companies from 17 countries present their products within this event.

"Agriculture is the backbone, that unifies different parts of our country - the Minister of Agrarian Policy and Food Igor Shvaika said at the opening of the exhibition, - I am grateful to each of our regions, which participate in the International Agricultural Exhibition AGRO 2014 and represent their products. We are people, who work on the ground – really have something to share and to be proud of. I am sure, that each of the guests and participants will find something useful and interesting here during next few days".

Minister noted that the exhibition contains the best examples of the agricultural sector and invited participants to enjoy "efficient work, pleasant communication and positive emotions".

"It's the 6th time I attend AGRO exhibition - said the Chairman of the Board of "SFGCU" PJSC Peter Vovchuk - it is extraordinarily useful event for Ukrainian state-owned enterprises. It is a great opportunity for managers and industry experts to know the products of the markets of all spectrums of agricultural production and agricultural equipment, as well as a good opportunity to meet and discuss future cooperation with partners and colleagues".

Booth of "SFGCU" PJSC

This year the booth of "SFGCU" PJSC presents numerous examples of products of the processing facilities of the company: ecological feed, which are produced by the branch of PJSC "SFGCU" in Iziium (Kharkiv region), cereals of Novoukrainskyi mill (Kirovograd region), which are recognized as the best one among domestic products in this segment of the market, flour, which is exported to Korea, China and Palestine. Also, everyone could see the presentation of the elevator and processing capacities of the state corporation.

Numerous representatives of business community, domestic producers of agricultural machinery, manufacturers of the equipment and universal components for servicing of the livestock, as well as dealers of British, Belgian, German, American, Italian harvesting machines have taken part in AGRO 2014 this year.

As the exhibition AGRO is a scientific forum too, its program provides a series of seminars, round tables, conferences, briefings, presentations etc.

Separate negotiations and committees meetings will be attended by the representatives of the central office of "SFGCU" PJSC.
